| DEPARTMENT: Information Systems | POLICY NUMBER: 0010 |
| DISTRIBUTION: All Staff | EFFECTIVE DATE: 1/22/2020 |
| SUBJECT: Transmission Security | REVISION DATE: |

POLICY:

In order to ensure the confidentiality, integrity, and availability of EPHI, Equinox Inc. will implement technical security measures to guard against unauthorized access as required by the HIPAA Security Regulations.

PROCEDURE:

| Person(s) Responsible: | Procedures: |
|---------------------------------|---|
| Director of Information Systems | <ol style="list-style-type: none">1. <u>Encryption</u><ol style="list-style-type: none">(a) EPHI sent between two sites, across unsecured communication lines, will be encrypted at 128-bit or higher and in compliance, as appropriate, with NIST Special Publications 800-52, Guidelines for the Selection and Use of Transport Layer Security (TLS) Implementations; 800-77, Guide to IPsec VPNs; or 800-113, Guide to SSL VPNs, or others which are Federal Information Processing Standards (FIPS) 140-2 validated.(b) In addition, encryption keys should be kept on a separate device from the data that they encrypt or decrypt. |
| Director of Information Systems | <ol style="list-style-type: none">2. <u>Firewall Controls</u><ol style="list-style-type: none">(a) Networks containing systems and applications with EPHI shall implement perimeter security and access control with a firewall.(b) Firewalls shall be configured to support the following minimum requirements: |

| | |
|--|---|
| | <ul style="list-style-type: none">(i) Limit network access to only authorized workforce members and entities;(ii) Limit network access to only legitimate or established connections; and(iii) Console and other management ports shall be appropriately secured or disabled. |
